TREZ HOTA DAY CARE CENTER.

- Our center started on April, 2013 with only two teachers and 6 kids. As days, months and years went on kids kept on joining to our school and wonderful enough up to this moment we are now grown up and having two branches.
- **Trez Hota Day Care** is an English medium school and we offer good care and quality education to the kids of which many parents are attracted to and tend to emphasize other parents to bring their kids to our school, and for this we are very proud. Our aim is to build a good foundation to the kids.
- We treat all the kids equally in terms of the services offered, without considering their color, gender, disability or family background.
- The Subjects we teach are Communication i.e writing, reading and dictation, Arithmetics, Health care and Art and Craft.

THANKS.
